SUMMARY OF THE STORY & GAME FLOW

●INTRODUCTION

The content of this introduction is based on what written on the plastic sheet (Not for sale merchandise).
*You can see the sheet image with switching to "Plastic sheet" tab.
However, **we can see lots of contradictions, wrongs, and strange parts in the sheet.**
Perhaps, the person written that would be not a development member.
There are some parts I translated as is, some parts I paraphrased.
In addtion, I added my pointings out or supplements as comments.
I love this game including such weird parts, and I think that is one of attractive.

The beginning cutscene

※Alegius is praying.

Alegius "The goddess who watching over the world..., the goddess who ruling light and dark...."
Alegius "Please grant my wish...."
Alegius "Please give birth the right soul "Alm" to this star "EDGE" on behalf of me "Alegius"."
Alegius "Please do before my life ends."
Alegius "The oracle of the artificial god "Outnion" that be covered fog is going to lead this star to ruin."
Alegius "Alm can save this star."
Alegius "The Goddess, please grant my wish...."
Alegius "Please give a body to Alm's soul."

※Dada & Lulu comes right in front of Alm by their spaceship(like a UFO)

Dada How the energy !
Lulu This star reeks. I know that collapsing star has smell like this.
Dada We can find lots of treasures at stars like this!
Dada Hehe, we are ”Dada & Lulu” the looters in universe!
Dada We’ll go ahead ! Well, good luck with that !

The rough game flow is divided into 3 parts "White Lizzard Island", “Collecting 5 souls" and "The Fog Empire".
But player takes the longest time in "White Lizzard Island", qualities of game and story of the part is still better out of these.
According to the plastic sheet this game has 10 scenario as below, but in fact has only 3 phases (scenario 1, scenario 2~9, and scenario 10).
Also, it is written "scenario" but they don't proceed in order.

Scenario 1：White Lizzard Island
Scenario 2～9：Collecting 5 souls
Scenario 10：The Fog Empire

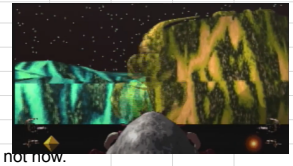
Scenario 1	Scenario 2	Scenario 3	Scenario 4	Scenario 5
White Lizzard Island	Cosvil	Moreal	Badoll	Badoll
Scenario 6	Scenario 7	Scenario 8	Scenario 9	Scenario 10

1. White Lizzard Island

When Alm starts his journey, he doesn't get clear instructions.
Alm's final purpose is to go to the Fog Empire and stop runaway of Outnion.
For that, he will focus on getting strong bodies or items from enemies for a while.

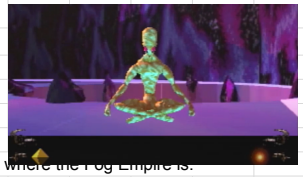
In the meanwhile, he learns that the monks almost rule this island and doing bad terrible.
The monks are hostile force with the Fog Empire and are going to separate the White Lizzard Island from the continent.

Alm gets their strong body and go to the "Shining Tower".
When he arrives at the top of the Tower, a countdown starts.
It is time limit until separating.
If he can't make it, can't reach the Fog Empire.
He escapes to the north continent in a hurry.
As soon as he arrives there, the ghost of Alegius appears, and advises to get back to the island later not now.



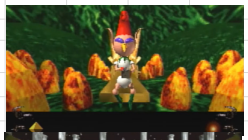
●Comment

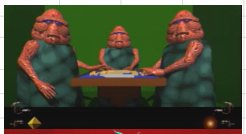
We can't know why monks needs to separate the island.
It's my thoughts on the story, probably they who living the island was planning to escape to out of the EDGE.
They knew that the EDGE is going to go to ruin in near feature.
Also, a thing they can't defeat the Fog Empire.
Gamelm one of monks says, "the gravity of the island is reducing", is one of the reasons of my thought.
From Shenbaba's lines, we can be thought that it is inconvenience the separation of the island from the continent where the Fog Empire is.
Probably, there is something of supporting the oracle at the island.

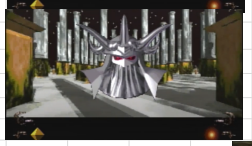


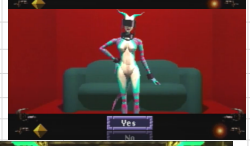
Althogh the "Shining Tower" is a very characteristic location, there is nothing in particular.
When Alm arrives there, **a countdown somehow starts.**
If Alm can't make it, an explosion occurs, and game is over.
*It can be thought this explosion is different from the oracle.
But, if Alm can escape to the north continent before time limit comes,
the explosion doesn't occur, and he can get back later.
What is this explosion? No one would know.

2. Collecting 5 Souls

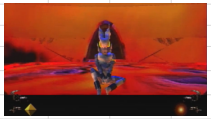


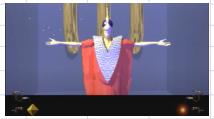


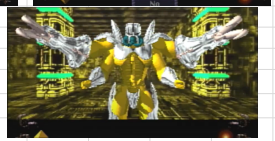




From here on, the quality of story decreases significantly.
After this, Alm must get something for someone and repeat that again and again.
In other words that is "errand".
There are not dramatic story development and the elements that it's worth interpretation.
In addition, it needs to collect 5 souls for defeat the Fog Empire, **but no one tell that.**
Proceeding the game, **Alm is collecting that before you know it.**
That turn out on the way, but by then he has already started collecting.

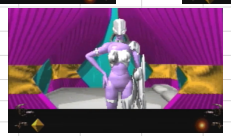


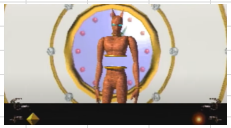




Alm gets 5 souls by these ways as follows.

Soul of Flame : To save Sigel
Soul of Water : To defeat Selena Balbal
Soul of Wind : To save Lilics Prince
Soul of Time : To defeat the Time Fiend
Soul of Light : To defeat the Eram



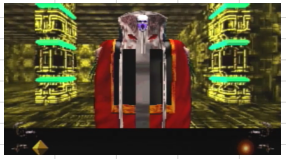


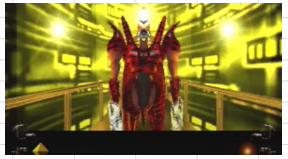
Eram is in the Fog Empire, so Alm goes there before collecting all of souls.

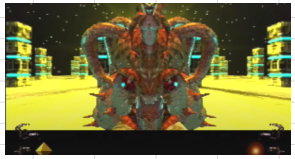
3. The Fog Empire

Alm rushes into the Fog Empire by the matter transfer device.
And he finds Eram, defeats him and gets the strongest body.
At there, it turns out that Eram was one of resistance originally and dead in battle,
but the Empire revived him and was taking advantage of him as a murder weapon.
*It is unknown whether this "resistance" means monks.

Alm defeats 3 exectives of Empire by the body of Eram, and then...







The last cutscene

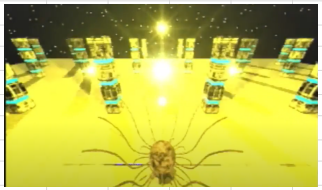
※The final boss name is unknown.
If defeat him, player can't possess his body (because the last cutscene comes after the battle soon)
and he doesn't give his name, so we can't see the name.

Unknown The universe judgement has already done.
Unknown Alm, you should already know it.

Unknown Don't break the Outnion!
Unknown Alm! Don't!

Unknown If you do, the universe heads to ruin!

Unknown Don't...! Alm...!!



●Comment

That's it.

It's too hard to understand.

I think that the universe judgment means the oracle of Outnion, but what does "already done" mean?
In addition, the final boss says that Alm also knows it.

From here on, it's my thoughts on the story.

- In the beginning cut scene, Lulu says the EDGE seems to be collapsing.
- The final boss says just before fight as follows.
  "Outnion, please continue the final oracle."
  "Are you going to disobey the will of the universe?"
  "Are you going to prevent the evolution of this star?"

Interpriting from it,

- The oracle of Outnion has already started at the game beginning.
- That is not the oracle is completed immediately and seems to have several steps.
  So, the EDGE still exist but has a time limit to collapsing.
- The Fog Empire worships the Outnion and thinks that the Outnion leads the universe to evolution.

Also, it thinks that it should be to accept somewhat sacrifice for the evolution, so the EDGE heads to collapse.
It is unknown that why it needs to sacrifice the EDGE and how the sacrifice involves to the universe evolution.
And the thinking became the religious ideology.

We can't know that what happened to Alm, the other characters, the EDGE and the Universe after that.

Are the EDGE or the universe saved by the Outnion was destoryed?
If the line of the final boss is truth, did the universe ruin?
Or did Alm stop to destroy the Outnion just before?

The answer is only in us own.
